

Guidelines for publishing discussion papers

Please observe the following points when submitting your publication:

1. All papers are to be submitted to the SEPS administration(seps@unisg.ch).
2. Publications by professors and assistant professors will be published immediately. All others (Ph.D. students) require the permission of a professor in the department.
3. For the first pages of your paper (including the abstract, keywords and JEL classification) please use the template which can be downloaded from the webpage of the Department of Economics.
4. Please send us the rest of the publication as a PDF document. Start directly with the text (no title). The page numbering should start at “3”.
5. The SEPS administration is responsible for the first pages sent to us in Word format (item 2 above); the respective authors are responsible for the rest (item 3 above).
6. We will pass on the paper to RePEc and publish it on the SEPS homepage.

Thank you in advance.
